### Stirley Community Farm

Stirley Community Farm is an exciting venture into the world of food and farming.

The 'Cre8 barn', renovated specifically for teaching purposes, sits amidst 250 acres of meadows that are home to grazing beef cattle, a food training garden, orchard and bee hives.

The farm is perfectly set up to inspire people of all ages about the natural world right on their doorstep and provide them with the skills to grow their own food in a sustainable, wildlife-friendly way.

Visiting groups have the opportunity to harvest vegetables and salads from the training gardens and cook healthy and nutritious meals using their finds.

Call **01484 663185** or email [stirleyfarm@ywt.org.uk](mailto:stirleyfarm@ywt.org.uk) to find out more or make an enquiry
